

Lehigh Township Volunteer Fire Co., No. 1

Protecting the Life, Safety and Welfare of Our Fellow Citizens

Cherryville, Pennsylvania 18035

Thank you for your interest in the Lehigh Township Volunteer Fire Company's Fire Safety House.

The Lehigh Township Volunteer Fire Company will make available their safety house to surrounding communities adjacent to the Township of Lehigh.

Our safety trailer is designed to serve all ages and also accommodate most handicapped persons. It is equipped with sound and visual aids to enhance the experience. The TV and entertainment system is capable of playing CD's / DVD's, and VHS videotapes. There is a second TV / VCR that can be used on the exterior while a class is in session.

We like to assist you with your fire prevention rather than provide the service, so there is no lost identity or contact with your community. We will provide an operator and assistant to help your personnel provide the service.

In order to preserve the longevity of our house we prefer to operate in dry conditions.

Requirements:

Receipt of Certificate of Liability Insurance one week before event.

Maintenance / Service Fee: \$150.00 /day

Set-up requires a hard level surface.

Scheduling the Safety House can be done by contacting:

Shana Konek

phone: 484-357-9419
